

DOSIO

I Vini di Veronelli 2012

Critical guide to good winemakers that describes the wineries and the wines in a precise and detailed way with easy to understand symbols.

The 2012 edition examines 2,935 winemakers and describes 17,200 wines. Only 557 of these obtained the **Super TreStelle**, selected through a tight knit grid set at 93/100. A very high threshold dictated by the continuous improvement of the quality of Italian wines, which puts Italy among the top worldwide producers and Dosio's Barolo Fossati among them.
